

Major_Project_Report_phase-2 (1).pdf

CHAPTER 1 INTRODUCTION

This is a sample chapter showing you the formatting styles. The aim of this document is to present the basic guidelines on how a report should be constructed for B. Tech project. All students must conform to the rules and guidelines that have been laid out in the following sections while writing their final report. The content should have line space 1.5, justify both sides and do not hyphenate.

1.1. FIRST LEVEL OF HEADING:

This project report shall be presented in several chapters, starting with Introduction and ending with Summary and Conclusions. Each of the other chapters will have a precise title reflecting the contents of the chapter. A chapter can be subdivided into sections, subsections, and sub subsection so as to present the content discretely and with due emphasis.

1.1.1. SECOND LEVEL OF HEADING:

The title of Chapter 1 shall be Introduction. It shall justify and highlight the problem posed, define the topic, and explain the aim and scope of the work presented in the project report. It may also highlight the significant contributions from the investigation.

1.1.1.1. *Third Level of Heading*

This shall normally form Chapter 2 and shall present a critical appraisal of the previous work published in the literature pertaining to the topic of the investigation. The extent and emphasis of the chapter shall depend on the nature of the investigation

1.2. FIGURES AND TABLES

Center Align all the figures. Caption should appear at the bottom of the Fig. To give the caption, right click the figure and choose figure caption with numbering as <chap No.>.<fig number>

Figure 1.1 A sample Figure

Table 1.1: A sample table

Sl.No.	This is a	Sample	Table
1	ITEM 1	SAMPLE1	SOMETHING
2	ITEM2	ANOTHER SAMPLE LINE SPREADING OVER	SOMETHING

Center Align all the Tables. Caption should appear at the top of the table. To give the caption, right click the table and choose caption with numbering as <chap No.>.<fig number>

1.3. SCOPE

The scope of the project needs to be explained. Also, students must state if the project has some **social or environmental impact**.

CHAPTER 2 PROBLEM DEFINITION

CHAPTER 3 LITERATURE REVIEW

This Chapter details about the state of the art of the work in which students are creating the project. Students must provide the write up regarding the literature review in their own words. They should not copy and paste the contents from the paper. All the work mentioned in this section must provide the citation to the work. The same must be included in the Reference section with the square bracket followed by the reference number.[1]

CHAPTER 4 PROJECT DESCRIPTION

CHAPTER 5 REQUIREMENTS

CHAPTER 6 Methodology

CHAPTER 7 Experimentation

CHAPTER 8 Results

CHAPTER 9 DELIVERABLES
